Manual Heat Press Machine SF00005470

PRODUCT SPECIFICATION

Press Type	Pad
Max Print Area	18x24 inch
Usage	Fabric
Printing Speed	30 sec
Operation Mode	Hand Operated
Bed Size	12x18 inch
Frame Material	Aluminium

PRODUCT DESCRIPTION

The Manual Heat Press Machine is a practical and economical solution for heat-transfer printing on fabrics and garments. Designed for hand-operated use, it applies controlled heat and pressure to transfer graphics, logos, lettering, and designs onto suitable materials.

The machine features a sturdy aluminium frame, a 12 × 18 inch bed size, and supports a maximum print area of up to 18 × 24 inches, depending on the transfer setup. With an approximate printing cycle of 30 seconds, it is suitable for small businesses, garment printing units, customization shops, training centers, and low-to-medium volume production.

Its simple manual operation makes it easy to use while providing consistent pressure and even heat distribution for reliable transfer results.

Key Features

- Manual, hand-operated heat press machine
- Suitable for fabric and garment heat-transfer printing
- Maximum print area up to 18 × 24 inch
- Bed size: 12 × 18 inch
- Approximate printing cycle: 30 seconds
- Strong and durable aluminium frame construction
- Adjustable pressure for different transfer requirements
- Uniform heat distribution across the heating surface
- Precise temperature control for consistent printing
- Timer function for controlled transfer duration
- Easy-to-operate press mechanism
- Insulated handle for safer operation
- Compact design suitable for small workspaces
- Durable heating plate for repeated use
- Suitable for regular commercial and workshop applications
- Low-maintenance and economical printing solution
