A white Ohaus N1111N analytical balance scale. It features a large stainless steel weighing pan on top. The front panel has a digital LCD display showing "0.00 g". Below the display are four circular buttons labeled "Tare", "Mode", "On/Off", and "Power". A red emergency stop button is also visible. The Ohaus logo is printed in red on the left side of the unit.

Tare Function	Full-Capacity Tare
Communication	USB / RS-232
Power Supply	AC Adapter
Pan Material	Stainless Steel

PRODUCT DESCRIPTION

The OHAUS PR4202 Precision Weighing Balance is a high-capacity laboratory and industrial balance designed for accurate weighing of samples up to 4200 g with 0.01 g readability. It is suitable for routine weighing, formulation, parts counting, percentage weighing and other laboratory or production applications. The OHAUS precision-balance range provides a stainless-steel weighing pan, digital LCD display and USB/RS-232 connectivity on applicable configurations.

Key Features

- 4200 g maximum weighing capacity.
- 0.01 g readability.
- High repeatability for routine weighing.
- Stainless-steel weighing pan.
- Backlit LCD display.
- Fast stabilization of approximately 1 second on representative OHAUS PX configurations.
- Full-capacity tare function.
- Multiple weighing modes.
- USB and RS-232 communication.
- Robust metal-base construction.

Laptop LCD Screen Tester

PRODUCT SPECIFICATION

Test Patterns	Built-in Test Pattern Programs
Resolution Selection	Code Selection Buttons
Controls	Power Switch, Voltage Selection, Code Selection
Suitable For	Laptop, Monitor & TV Display Panels

PRODUCT DESCRIPTION

The Universal LVDS LCD/LED Screen Tester is a versatile diagnostic tool designed for testing and troubleshooting LCD and LED display panels used in laptops, monitors and TVs. It supports a wide range of panel sizes from 7 to 65 inches through LVDS interfaces. Built-in test patterns help technicians identify display faults such as lines, white screens, no-display conditions and other panel-related issues.

Key Features

- Wide Compatibility – Supports various LCD and LED panels from 7 to 65 inches.
- Built-in Test Patterns – Helps identify lines, white screens, no-display and other panel faults.
- Selectable Voltage – Provides 3V/5V voltage selection for different display panels.
- Resolution Selection – Code selection buttons allow matching different panel resolutions.
- Technician-Friendly Design – Suitable for professional laptop, monitor and TV display repair.
